Art Unit: 1654

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 38-41, 46-54, 56, 58-60, 63, and 66-68 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-90 of copending Application No. 10/794,316. Although the conflicting claims are not identical, they are not patentably distinct from each other. The '316 application claims administering the same protease inhibitors to the same patients, claims that the protease inhibitors have an EC_{50} for modifying glucose metabolism which is at least one order of magnitude less than their EC_{50} for immunosuppression, and claims administering the protease inhibitors in amounts such that immunosuppression does not occur.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

3. Applicant's arguments filed May 5, 2006 have been fully considered but they are not persuasive.

The terminal disclaimers filed May 5, 2006 over U.S. Patent No. 6,890,898 and U.S. Patent No. 6,803,357 are approved.

The provisional obviousness-type double patenting rejection over copending Application No. 10/794,316 is maintained. The '316 application has been allowed, and the issue fee has been paid. There is no basis for withdrawing a provisional obviousness-type double patenting rejection when the application forming the basis of the provisional rejection has already been allowed and the issue fee paid. Applicants' citation to MPEP 1504.06 is inapposite, as this application is not a design application. Instead, see MPEP 804(I)(B(1)). The fact pattern of the first paragraph of this section of the Manual does not apply to this application because the '316 application, being an allowed application, is not rejectable on other grounds.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
